

## **Brescia, Clean Water and Waste Collection with the Salubrix Project in Mozambique**

di [Redazione](#) - 30 Maggio 2025 - 7:37

**Brescia.** The Municipality of Brescia, as the lead entity, together with Medicus Mundi Italia, as the promoting entity, participated – with the project “Salubrix: Water Services and Waste Management for the Health of the Population in Urban and Peri-Urban Areas in Mozambique” – in the 2023 call for proposals from the Italian Agency for Development Cooperation, aimed at selecting initiatives to be financed, within the framework of international cooperation. The project, with a duration of 36 months, was the winner and obtained total funding of 1.9 million euros.

Thanks to this funding, it will be possible to support the Municipality of Maxixe, in the province of Inhambane (Mozambique), in improving the efficiency of the water supply system and the waste collection system.
